Company Profile

Two specialist divisions operate from a facility based in Preston, Lancashire. Here a group of over 40 highly skilled individuals are led by a very experienced management team. Together they have seen K-Coolers grow to be the largest company of its kind in the UK providing a specialist pump and cooler refurbishment service to the brewing industry.

As well as servicing the brewing industry at home, K-Coolers are building a significant client base in Europe and beyond.

K-Coolers is an ISO 9001-2000 accredited company

Lean manufacturing principles apply throughout K Cooler's refurbishment processes. The very nature of what they do as a business, and how we do it, helps eliminate waste.

There is complete traceability of equipment and that includes scrap handling and disposal and bar coding is in the process of being implemented.

Enviromental Concerns

Environmental concerns relating to pumps and coolers are at the very heart of K-Cooler's activities, as recycling and refurbishment are two of the company's foundation stones.
